

RTPZ-S

TEMPERATURE CONTROLLER

PRODUCT-NO.: 073495

This temperature controller is characterised by its precise temperature adjustment and easy operation. The storage heater fan is regulated automatically; its speed is matched to the temperature differential. This ensures a constant and even heat transfer into the room. The RTPZ-S is equipped with a separate ON/OFF switch and the possibility of connecting an optional booster heater in the storage heater that ensures a comfortable room temperature, even when temperatures suffer a sudden fall. The room temperature can be variably selected between 5 °C and 30 °C.

The main features

Electronic room temperature control

ON/OFF switch

Wall mounting

Breaking capacity max. 180 VA

Switch for constant comfort temperature, constant setback temperature, booster heater

Temperature range restriction in the rotary selector

Type	RTP-S	RTPZ-S
Part no.	073494	073495
Width	147 mm	147 mm
Height	79 mm	79 mm
Depth	27 mm	27 mm

Installation information

Please ask your local power supply utility or a registered electrician to install appliances that are not fully wired, i.e. ready to plug in. The electrician should also be able to assist you with obtaining the agreement of the respective power supply utility required for the appliance installation.
