

RTA-S2

TEMPERATURE CONTROLLER

PRODUCT-NO.: 231061

This temperature controller is characterised by its precise temperature adjustment and easy operation. The room temperature controller is equipped with a thermal feedback and ensures a constant room temperature thanks to its narrow switching differential. The controller is fitted with its own ON/OFF switch. The room temperature can be variably controlled.

The main features

ON/OFF switch

Variable temperature selection via rotary selector

Optional temperature setback via external time switch

Adjustable range restriction so that minimum and maximum temperatures can be specified individually

Type	RTA-S2
Part no.	231061

Technical data

Breaking capacity	10 A
Rated voltage	230 V
IP rating	IP30
Colour	pure white, RAL 9010
Width	75 mm
Height	75 mm
Depth	26 mm

Installation information

Please ask your local power supply utility or a registered electrician to install appliances that are not fully wired, i.e. ready to plug in. The electrician should also be able to assist you with obtaining the agreement of the respective power supply utility required for the appliance installation.
