

BHE 100 Classic

BATHROOM RADIATOR

PRODUCT-NO.: 233857

Bathroom radiators in the BHE Classic series are perfect for warming and drying towels and ensure cosy warmth after a shower or bath. The BHE can be connected directly to a hot water heating circuit and guarantees efficient use of energy for keeping your bathroom cosy all year round. For electrical operation only, the bathroom radiator is wired into a junction box. The electronic temperature controller then uses its individual time programs to ensure precision timing for the most accurate and efficient delivery of heat.
