

RHB 300

RADIANT HEATER

PRODUCT-NO.: 234422

The frameless and very slim design with the minimalist glass surface fits into any modern environment. Our radiant heaters emit a special form of heat which is perceived as particularly pleasant. The all-round bezel on the back means that the wall mounting bracket and power supply are no longer visible post installation.

The main features

300 W heating output

Black glass surface

Pleasant radiated heat

The clear design language highlights high grade interior appeal

Ideal for use as a booster or auxiliary heater

Optional installation vertically and horizontally

Straightforward and quick installation by a single person

Part no.	234422	234423	234424
Connected load	0.280 kW	0.47 kW	0.66 kW
Depth	49 mm	49 mm	49 mm
Height	600 mm	600 mm	600 mm
Width	600 mm	1000 mm	1400 mm

Technical data

Type	RHB 900
Part no.	234425
Connected load	0.85 kW
Depth	49 mm
Height	600 mm
Width	1800 mm

Technical data

Installation and commissioning of the equipment is only permitted in connection with external room temperature controllers that fulfil the following functions: Electronic room temperature control with weekday control and adaptive control of when heating starts. These requirements are fulfilled by the STIEBEL ELTRON room temperature controllers RTU-TC and SRC C digital. Failure to observe these requirements will result in a loss of the CE designation.

Installation information

Please ask your local power supply utility or a registered electrician to install appliances that are not fully wired, i.e. ready to plug in. The electrician should also be able to assist you with obtaining the agreement of the respective power supply utility required for the appliance installation.
