

CK 20 Trend

RAPID HEATER

PRODUCT-NO.: 234918

The CK 20 trend rapid heater is an economical heating solution that can be deployed quickly in different rooms. A power outlet is all that's required for electrical connection. The user friendly position of the programming unit enables easy access to temperature control. As a result, the CK 20 trend fits into the smallest of niches.

The main features

Installation information

Please ask your local power supply utility or a registered electrician to install appliances that are not fully wired, i.e. ready to plug in. The electrician should also be able to assist you with obtaining the agreement of the respective power supply utility required for the appliance installation.
