STIEBEL ELTRON

SHP-F 220 Premium

PRODUCT-NO.: 238630

Keeping your plans flexible

The flexibility you enjoy with a DHW heat pump is well demonstrated in this model. It is equipped with air ducts that allow it to draw outdoor air or waste heat from an adjacent room. Moreover, your installer can arrange the ducts horizontally or vertically, depending on the layout of the installation room.

A futureproof investment

The appliance is also well equipped on the inside: it achieves the highest possible energy efficiency class (A+) and provides you with hygienic DHW temperatures of up to 65 °C. A straightforward combination of heat pump and photovoltaic system makes even more efficient use of natural resources, as it allows you to heat your DHW with self-generated electricity. For feel-good moments that are truly homemade.

The main features

High flexibility in siting and installation

Hygienic DHW temperatures up to 65 °C achievable in efficient heat pump mode

Can be integrated into a smart grid (SG Ready)

Maximum reliability and cost savings due to maintenance-free cylinder protection (impressed current anode)
