

PEG 13

COMFORT INSTANTANEOUS WATER HEATERS

PRODUCT-NO.: 233994

Rely on a constant output

This instantaneous water heater makes things particularly easy for you. The two-stage selection determines the temperature at which the water comes out of the tap. You can specify one of two temperatures using a rotary selector. Once set, you can rely on it completely.

Carefree warm water Our appliance reliably maintains the selected temperature thanks to its electronic control system. In addition, it indicates when you are at risk of scalding. So there is nothing to stop you enjoying soothing warm water every single day.

PEG 18

Product-No.: 233995

The main features

Highly convenient thanks to electronic control

Consistent temperature delivery up to the maximum output

High energy efficiency – up to 30% savings possible compared with hydraulic instantaneous water heaters

Two-stage temperature setting with application symbols

Scale-resistant bare wire heating system

Installation information

Please ask your local power supply utility or a registered electrician to install appliances that are not fully wired, i.e. ready to plug in. The electrician should also be able to assist you with obtaining the agreement of the respective power supply utility required for the appliance installation.
