

ESH 10 0-N Trend

SMALL WATER HEATER

PRODUCT-NO.: 201393

Simply use hot water.

The small water heater supplies a draw-off point with average DHW demand. We recommend the version with larger cylinder capacity for frequently used draw-off points

Ready for use immediately.

Are you short on space under the sink for a small water heater? No problem – you can easily install this model above the sink if you prefer. It is equipped with a long power cable with standard plug. Ensuring versatile convenience.

ESH 5 0-N Trend

Product-No.: 201388

The main features

Variable Temperature setting range in the range of 35 - 85 °C with temperature limit option

Suitable for oversink installation

Reset the high limit safety cut-out by unplugging the power plug

Installation information

Please ask your local power supply utility or a registered electrician to install appliances that are not fully wired, i.e. ready to plug in. The electrician should also be able to assist you with obtaining the agreement of the respective power supply utility required for the appliance installation.
