

SH 15 SLi

SMALL WATER HEATERS 5 TO 15 L

PRODUCT-NO.: 229478

For installation above the draw-off point, the small water heater SH..SL is ideal, irrespective of whether you want to supply one or several draw-off points. These devices are available with capacities of 10 or 15 litres. They can be adjusted anywhere between 35 °C and 82 °C, making water with a consistent temperature available at all times. The thermal cut-out provides a permanent, safety-first maximum water temperature. This can be set to 38, 45, 55 or 65 °C. The highly effective thermal insulation of the small water heaters ensures the lowest energy losses.
