

SHZ 50 F

WALL MOUNTED CYLINDERS 30 TO 150 L

PRODUCT-NO.: 073126

The SHZ 30-200 F is a sealed unvented (pressure-tested) wall mounted water heater for supplying one or more draw-off points. The temperature can be selected variably from approx. 35 °C to 82 °C. The temperature can also be limited to 45 °C, 55 °C or 65 °C. The water content is maintained by the controller. Furthermore, this wall mounted water heater impresses with optimised thermal insulation for lowest possible heat losses.

The main features

Infinitely variable temperature selection from 35 °C to 82 °C

Universal connections

Connection of various heating element outputs 1.3 / 2.3 / 3.6 and 5.9 kW

Supply voltage 230 V

Quick heat-up key for higher DHW demand

Four temperature settings

Temperature limit

Dual circuit appliance

2 wall mounting brackets from 120 litres

Copper heating element

Open vented design

Installation information

Please ask your local power supply utility or a registered electrician to install appliances that are not fully wired, i.e. ready to plug in. The electrician should also be able to assist you with obtaining the agreement of the respective power supply utility required for the appliance installation.
