

# WPM-RBS

PRODUCT-NO.: 230381

This connecting assembly is essential for heat pump systems with separate high efficiency pumps in conjunction with the heat pump manager or a mixer module. It comprises a wall mounted enclosure with integral relay PCB for up to six 230 V inputs and six MSR relay outputs. All inputs and outputs have encoded Rast5 plug-in connectors with screw terminal.

## The main features

Relay set for connecting high efficiency pumps

---

Integral relay PCB for up to 6 inputs and outputs

---

Connection via Rast5 plug-in connector with screw terminal

---

The relay set is not required for the Yonos UP 25/7.5 PCV (235949) circulation pump series.

| Type     | WPM-RBS |
| Part no. | 230381  |

#### Technical data

|   |         |
|---|---------|
| Max. peak load current                        | 65 A    |
| Max. relay output breaking capacity           | 2 (2) A |
| Max. power across terminal "Netz-L" [mains L] | 10 A    |
| Supply voltage                                | 230 V   |
| IP rating                                     | IP 31   |
| Width   | 205 mm  |
| Height  | 211 mm  |
| Depth   | 56 mm   |

## **Installation information**

Please ask your local power supply utility or a registered electrician to install appliances that are not fully wired, i.e. ready to plug in. The electrician should also be able to assist you with obtaining the agreement of the respective power supply utility required for the appliance installation.
