

AWG 315 SR.2

ACCESSORIES

PRODUCT-NO.: 205786

The main features

Stable wall outlet, also suitable for large wall thicknesses

Telescopic for optimal adjustment

Wall outlet is made of high density EPS

Any moisture that accumulates is drained away by integrated moulded slopes

The weather grille made of silver lacquered aluminium affords a high level of corrosion protection

Quiet operation and high convenience due to the low-noise and low pressure drop design of the weather grille

The integrated grille prevents rodent access

Run marks on the face panel are prevented by a wide drip edge with lateral drainage protection

Type	AWG 315 SR.2
Part no.	205786

Technical data

Height	440 mm
Width	440 mm
Depth	340 mm
Min. outlet aperture	450x450 mm
Wall thickness	325 - 500 mm
Max. air flow rate	1300 m ³ /h
Colour	silver-metallic

Installation information

Please ask your local power supply utility or a registered electrician to install appliances that are not fully wired, i.e. ready to plug in. The electrician should also be able to assist you with obtaining the agreement of the respective power supply utility required for the appliance installation.
