

# LWM 250

ACCESSORIES

PRODUCT-NO.: 189999

The ventilation module LWM 250 combines three decisive benefits. Firstly, it ensures a healthy air change thanks to its ventilation function and protects against moisture damage, particularly low energy houses. Secondly, it reduces heating costs as latent energy in the extract air is withdrawn and transferred to the brine circuit. This results in a requirement for only a small ground probe, thereby reducing installation costs.

## The main features

Heat recovery from the extract air

---

Reduced heating costs

---

For healthy air changes

---

Protection against moisture damage

Type	LWM 250
Part no.	189999
Rated voltage	230 V
Height	360 mm
Width	600 mm
Depth	420 mm

Technical data

**Installation information**

Please ask your local power supply utility or a registered electrician to install appliances that are not fully wired, i.e. ready to plug in. The electrician should also be able to assist you with obtaining the agreement of the respective power supply utility required for the appliance installation.
