

SHP-A 300 X Plus

DHW HEAT PUMPS

PRODUCT-NO.: 238635

Become more self-sufficient at home

Self-sufficiency in your own home is an important factor. You can take a big step in the right direction with this DHW heat pump. Not only does it use renewable sources for DHW heating, but with its superbly insulated cylinder, it also achieves excellent output values. For you, that means hot water for a bath or shower whenever you need it – with low energy consumption.

Easy to operate and connect

A user friendly LCD screen helps you operate the appliance. It shows you at a glance how much mixed water is currently available. Would you like to connect the heat pump to your photovoltaic system? Nothing could be simpler. The appliance comes with this option as standard, allowing you to make clever use of energy from the sun as well as the air.

The main features

Hygienic DHW temperatures up to 65 °C achievable in efficient heat pump mode

Can be integrated into a smart grid (SG Ready)

Maximum reliability and cost savings due to maintenance-free cylinder protection (impressed current anode)
