

SOL SBP-S

COLLECTOR ACCESSORIES

PRODUCT-NO.: 231980

The quick-acting fixing system enables fast and secure installation of rooftop collectors on pitched roofs with roof tiles. In the case of the vertical and horizontal installation side by side, the quick-acting fixing system is fitted without tools, thereby reducing the installation effort. Pre-assembled components make handling easier and further reduce the installation time. The flexible collector installation system, together with the collectors matched to the specific orientation, enables collectors to be installed vertically, horizontally and horizontally one above the other. Use the SOL SBP-S for vertical installation side by side.

The main features

Installation without tools

Faster installation

Flexible installation options

Straightforward and reliable installation

With PROFIL CLICK® push-fit connections for complete rooftop installation without tools

Pre-assembled components save time

Suitable for tiles with level corrugation valley (e.g double Roman tile)

Type	SOL SBP-S	SOL SBP-W	SOL SBP-WE
Part no.	231980	231981	231982

Installation information

Please ask your local power supply utility or a registered electrician to install appliances that are not fully wired, i.e. ready to plug in. The electrician should also be able to assist you with obtaining the agreement of the respective power supply utility required for the appliance installation.
