

# SOL SBP-W

## COLLECTOR ACCESSORIES

PRODUCT-NO.: 231981

The quick-acting fixing system enables fast and secure installation of rooftop collectors on pitched roofs with roof tiles. In the case of the vertical and horizontal installation side by side, the quick-acting fixing system is fitted without tools, thereby reducing the installation effort. Pre-assembled components make handling easier and further reduce the installation time. The flexible collector installation system, together with the collectors matched to the specific orientation, enables collectors to be installed vertically, horizontally and horizontally one above the other. To enable horizontal installation one above the other, the SOL SBP-WE is used as extension kit together with the SOL SBP-W as standard set.

### The main features

Installation without tools

Suitable for tiles with level corrugation valley (e.g double Roman tile)

With PROFI CLICK® push-fit connections for complete rooftop installation without tools

Pre-assembled components save time

Straightforward and reliable installation

Flexible installation options

Faster installation

Type	SOL SBP-S	SOL SBP-W	SOL SBP-WE
Part no.	231980	231981	231982

## **Installation information**

Please ask your local power supply utility or a registered electrician to install appliances that are not fully wired, i.e. ready to plug in. The electrician should also be able to assist you with obtaining the agreement of the respective power supply utility required for the appliance installation.
