

SBB 1001

DHW CYLINDER

PRODUCT-NO.: 229293

The large floorstanding SBB cylinders are ideal for large heat pumps in apartment buildings. With the SOL version, it is also possible to integrate a solar thermal system. Furthermore there are parallel connection options. The WTS E heating module from the accessory range is required for DHW heating and cylinder heating in conjunction with a heat pump.

The main features

Enamelled cylinder for DHW heating with high heat pump output

1000 l cylinder

For DHW heating in an apartment building

DHW heating in heat pump mode via matching heating module WTS 30/40 E (accessory)

Highly effective insulation for low heat losses (option)

| Type | SBB 751 | SBB 1001 |
|-----------------------------------|---------|----------|
| Part no. | 229292 | 229293 |
| Rated capacity | 763 l | 1004 l |
| Diameter incl. thermal insulation | 1010 mm | 1010 mm |
| Height | 1777 mm | 2277 mm |

Technical data

| | | |
|----------------------------|---------|---------|
| DHW connection | G 2 A | G 2 A |
| Cold water connection | G 1 A | G 2 A |
| Flanged aperture | 280 mm | 280 mm |
| Height of unit when tilted | 1840 mm | 2335 mm |
| Weight | 210 kg | 267 kg |

Installation information

Please ask your local power supply utility or a registered electrician to install appliances that are not fully wired, i.e. ready to plug in. The electrician should also be able to assist you with obtaining the agreement of the respective power supply utility required for the appliance installation.
