

SBBE 301 WP

DHW CYLINDER

PRODUCT-NO.: 234348

The SBBE DHW cylinders are state of the art. Thanks to their advanced, thick thermal insulation, they achieve excellent efficiency values. Standby energy consumption is reduced by approx. 50 % compared with earlier models.

Sleek design.

Another benefit: the design of the SBBE is geared to match that of STIEBEL ELTRON heat pumps to ensure that both appliances look in harmony side by side. Particularly because the pipework and connections at the back do not impact on the clear design.

The main features

300 l cylinder

Energy efficiency ratings A

Saves approx. half the standby energy that would otherwise be required

Temperature and heat content indication on the display

Special heat exchanger for heat pump operation

All hydraulic connections at the back

Designer fascia with adjustable depth for use with accessories

Maintenance free impressed current anode

Type	SBBE 301 WP	SBBE 302 WP
Part no.	234348	234349
Rated capacity	299 l	290 l
Energy efficiency class	A	A

Technical data

Standby energy consumption/24 h at 65 °C	1,2 kWh	1,2 kWh
Surface, indirect coil, top	3,2 m ²	4,8 m ²
Flanged aperture	210 mm	210 mm
Height of unit when tilted	1885 mm	1885 mm
Height	1737 mm	1737 mm
Width	786 mm	786 mm
Depth	852 mm	852 mm
Weight	206 kg	225 kg

Installation information

Please ask your local power supply utility or a registered electrician to install appliances that are not fully wired, i.e. ready to plug in. The electrician should also be able to assist you with obtaining the agreement of the respective power supply utility required for the appliance installation.
