

HSBC 200 L

PRODUCT-NO.: 236684

Put together the perfect duo for your home

Opt for one appliance and get two cylinders. That's possible with this cylinder solution. This space saving combination of DHW cylinder and buffer cylinder gives you a capacity of up to 180 litres. This ensures a reliable supply to your home.

Never do without heat

Thanks to its carefully coordinated design, you can easily connect the integral cylinder to a suitable model from our range of efficient air source heat pumps. This ensures an absolutely reliable supply of domestic hot water and heating energy in your home.

The main features

Combi unit comprising a DHW cylinder of up to 180 litres with a buffer cylinder

Halves the installation space required for separate cylinders

Compact, reliable and energy saving for use in family homes

Perfect for combination with an air source heat pump for DHW heating and room heating

Connection of two heating circuits possible

Type	HSBC 200 L
Part no.	236684

Technical data

Standby energy consumption/ 24 h at 65 °C	1.30 kWh
Nominal capacity, DHW cylinder	180 l
Nominal capacity, buffer cylinder	100 l
Surface area, heat exchanger	1.60 m ²
Capacity, heat exchanger	10 l
Height	1908 mm
Width	680 mm
Depth	800 mm
Height when tilted	2107 mm
Weight	185 kg

Installation information

Please ask your local power supply utility or a registered electrician to install appliances that are not fully wired, i.e. ready to plug in. The electrician should also be able to assist you with obtaining the agreement of the respective power supply utility required for the appliance installation.
