

SBP 200 E

HEATING BUFFER CYLINDER

The perfect complement to your heat pump

Make use of thermal energy Have you decided on an environmentally responsible heat pump and are now looking for an accompanying buffer cylinder? This model for family homes is the perfect choice. If necessary, you can also connect an electric heater to the cylinder for a plentiful heat supply. If your heat pump supports reverse operation, the appliance can also store the water required for cooling.

Our range also includes a model equipped with a special indirect coil. This allows you to make efficient and effective use of the heat yielded by your solar thermal system.

The main features

Designed for different heat pumps

Cooling operation possible

Individual cylinder selection subject to system size

Highly effective thermal insulation

PRODUCT-NO.: 185458

SBP 400 E

Product-No.: 220824

SBP 700 E

Product-No.: 185459

SBP 700 E SOL

Product-No.: 185460

Type	SBP 200 E	SBP 400 E	SBP 700 E
Part no.	185458	220824	185459

Technical data

Energy efficiency class	B	B	B
Standby energy consumption/24 h at 65 °C	1.10 kWh	1.60 kWh	2.20 kWh
Nominal capacity	207 l	415 l	720 l
Height	1535 mm	1710 mm	1890 mm
Diameter incl. thermal insulation	630 mm	750 mm	910 mm
Height when tilted	1650 mm	1800 mm	2000 mm
Weight	58 kg	81 kg	185 kg

Type	SBP 700 E SOL
Part no.	185460

Technical data

Energy efficiency class	B
Standby energy consumption/24 h at 65 °C	2.20 kWh
Nominal capacity	703 l
Height	1890 mm
Diameter incl. thermal insulation	910 mm
Height when tilted	2000 mm
Weight	216 kg

Installation information

Please ask your local power supply utility or a registered electrician to install appliances that are not fully wired, i.e. ready to plug in. The electrician should also be able to assist you with obtaining the agreement of the respective power supply utility required for the appliance installation.
