

SBPE 400

PRODUCT-NO.: 235199

The perfect complement to your heat pump

You've decided on an environmentally responsible heat pump and are now looking for an accompanying buffer cylinder. This model for family homes is the perfect choice. If necessary, you can also connect an electric heater to the cylinder for a plentiful heat supply. If your heat pump supports reverse operation, the appliance can also store the water required for cooling. Make use of thermal energy

Our range also includes a model equipped with a special indirect coil. This allows you to make efficient and effective use of the heat yielded by your solar thermal system.

The main features

Designed for different heat pumps

Cooling operation possible

Individual cylinder selection subject to system size

Highly effective thermal insulation

Energy efficiency class A

Type	SBPE 400
Part no.	235199

Technical data

Standby energy consumption/ 24 h at 65 °C	1.30 kWh
Nominal capacity	396 l
Height	1717 mm
Width	787 mm
Depth	852 mm
Height when tilted	1895 mm
Weight	131 kg

Installation information

Please ask your local power supply utility or a registered electrician to install appliances that are not fully wired, i.e. ready to plug in. The electrician should also be able to assist you with obtaining the agreement of the respective power supply utility required for the appliance installation.
