

LWZ 370 plus

CENTRAL

PRODUCT-NO.: 232033

The centralised LWZ 370 plus ventilation unit comes out top for performance, efficiency and ventilation comfort. It provides a pleasant ambience automatically, in buildings ranging from detached houses to small commercial buildings.

Night cooling during the summer.

With its integrated summer bypass function, the LWZ 370 plus automatically makes use of cooler summer nights to cool the home down to a pleasant temperature. That is both extremely comfortable and also highly efficient.

The main features

High air flow rate of 400 m³/h

Central ventilation and extract air system for optimum air quality

High efficiency due to low auxiliary energy consumption

Integrated summer bypass function and preheater bank

Very easy to maintain

Type	LWZ 170 E plus	LWZ 70 E	LWZ 370 plus
Part no.	233850	233851	232033
Depth	567 mm	290 mm	567 mm
Width	677 mm	560 mm	677 mm
Height	765 mm	600 mm	765 mm
Air flow rate	50-300 m ³ /h	50-180 m ³ /h	50-400 m ³ /h

Technical data

Energy efficiency class in average climates, manual control	A	A	A
Energy efficiency class in average climates, time control	A	A	A
Energy efficiency class in average climates, central demand-dependent control	A	A	A
Heat availability level up to	90 %	90 %	90 %
Air connector diameter	160 mm	125 mm	180 mm
Weight	38 kg	25 kg	38 kg
Rated voltage	230 V	230 V	230 V
Sound power level (EN 12102)	44 dB(A)	46 dB(A)	54 dB(A)
Power consumption without preheater bank	132 W	136 W	172 W

Installation information

Please ask your local power supply utility or a registered electrician to install appliances that are not fully wired, i.e. ready to plug in. The electrician should also be able to assist you with obtaining the agreement of the respective power supply utility required for the appliance installation.
