

LA 70 VE-U 12

DECENTRALISED

PRODUCT-NO.: 237110

LA 70 for routing extract air to the outside.

The LA 70 is designed so that the extract air can be routed outdoors from damp rooms such as the kitchen and bathroom, via rigid or flexible extract air ducts. Supply air is provided via adjacent rooms.

No adverse effects from the outside.

To keep noise disturbance from outside to a minimum, and also to prevent unwanted draughts of outdoor air, the LA 70 has an automatically opening and closing iris shutter.

The main features

Decentralised ventilation unit for rooms with exterior walls

For use in traditional extract air areas, such as the bathroom, kitchen and WC

Modernisation solution that is easy to install

Ideal for use in combination with the LWE 40

Type	LA 70 VE-U 12	LA 70 VE-U
Part no.	237110	237109
Air flow rate	79 m ³ /h	68 m ³ /h

Technical data

Rated voltage	12 V	230 V
Output voltage	12 V	230 V
IP-Rating	IPX4	IPX4
Permissible safety zone	1, 2, 3	2, 3
Height	197 mm	197 mm
Width	197 mm	197 mm
Depth	108 mm	108 mm
Weight	0,9 kg	0,9 kg

Installation information

Please ask your local power supply utility or a registered electrician to install appliances that are not fully wired, i.e. ready to plug in. The electrician should also be able to assist you with obtaining the agreement of the respective power supply utility required for the appliance installation.
