

VRL-C 870 G Premium

PRODUCT-NO.: 204132

The main features

High degree of heat recovery due to aluminium cross-countercurrent heat exchanger

The supply and discharge air grilles can be adjusted to optimise air flow

Easily installed in the ceiling thanks to the matching rail system

Easy maintenance as the casing cover pivots open

Flexible installation, with choice of flush or surface installation on ceiling

Decentralised ventilation unit with heat recovery for schools, nurseries, seminar, therapy and club facilities, offices, community halls

Integral preheater coil

Very quick and easy installation, even in modernisation projects

Type	VRL-C 870 G Premium
Part no.	204132

Technical data

Heat recovery level up to	92 %
Heat recovery level, nominal flow rate DIBt	80 %
Heat recovery class to EN 13053	H1
Air flow rate	300-870 m ³ /h
Nominal air flow rate	600 m ³ /h
Max. efficiency, cross-counter-current heat exchanger	92 %
SFP classification to EN 13779	SFP 1
Filter class, extract air	ePM 10 > 50 % (M5)
Filter class, supply air	ePM1 ≥ 50 % (F7)
IP rating	IP 20
Cable length	3 m
Installation type	Indoor installation
Rated power consumption, fan	147 W
Max. power consumption, fan	329 W
Max. power consumption	1,750 W
Power consumption, preheating coil	400 W
Power consumption, reheating coil	1,000 W
Phases	1/N/PE
Frequency	50 Hz
Fuse protection	16 A
Height	507 mm

Width	902 mm
Length	1,688 mm
Condensate hose length	3 m
Condensate hose diameter	7 mm
Min. ceiling clearance	20 mm
Air connection diameter	315 mm
Weight	140 kg

Availability on request

Installation information

Please ask your local power supply utility or a registered electrician to install appliances that are not fully wired, i.e. ready to plug in. The electrician should also be able to assist you with obtaining the agreement of the respective power supply utility required for the appliance installation.
